**Subject:** Chief Roberts letter to BOS re Prop 90

Below is a copy of letter sent to the BOS. Chief Roberts opposes Prop 90. Did the Fire Board take a similar position after public discussion or is this just the Chief speaking out as a Citizen using his official position of influence. Please consider this **'Correspondence'** for purposes of the upcoming agenda.

When was this matter discussed by the Board of Directors? I find no agenda topic listed for the last two meetings.

If this is Board approved when was the fiscal analysis done by the department and by who?

Does Prop 90 reduce the property tax revenue to the county?

Does it cost more to fight a fire in a house based upon its property assessment?

Does the department keep statistics as to the age of persons treated during medical responses?

Does the department keep statistics relative to population and number of medical calls?

Without a substantive base upon which to make an analysis citizen Roberts assertions in the letter are just that.

Hello Supervisors Hidahl, Frentzen, and Ranalli,

I understand that Prop 90 is going to be reviewed in a report from the CAO's office at the Oct 24<sup>th</sup> meeting. Unfortunately I have a commitment related to the JPA Ambulance that I cannot get out of, so I will not be able to attend and offer comments, but please consider these concerns from El Dorado Hills and Rescue Fire Departments.

We fully understand that the BOS feels Prop 90 is a mechanism to bring in more new people into the County by offering them the ability to transport their much lower property tax with them when they purchase a home here. Once here in the County I believe the thought process is that these new people will spend money on upgrading their home, or purchasing things within El Dorado County therefore increasing the jobs in the County & subsequently the sales tax that the County receives which will offset the loss of property tax revenue, so it's easy to understand the County's motivation, but I don't think the Board has considered all of the unintended consequences of this proposition.

From an Emergency Services perspective my issues with Prop 90 are these;

1. Who do we attract with this benefit. Answer... Older (retired) home owners that made a fortune selling their bay area home, and are likely already, or will soon be on Medicare. I know this because the majority of my neighbors in Blackstone already fit this exact demographic. As you are very aware this demographic equals higher EMS demand on your Fire Agencies, and JPA Ambulance. Additionally, as you also know when these patients are transported by the Ambulance the financial reimbursement from Medicare is minimal equaling pennies on the dollar.

Do we need to attract this demographic when El Dorado County is ALREADY the OLDEST County in the State with the highest percentage of people on Medicare? Where is the benefit to Fire and EMS, or even the County for that matter?

2. At a recent street party in Blackstone I asked eve one that fit the demographic of older, retired, downsizer

transplants {by far the vast majority of my neighbors) if they would have purchased their new home in EDH without this benefit, and ALL stated that they knew nothing about Prop 90 until after they purchased their home, so it did not, and would not have made a difference.

3. I also know that, due to many years of, let's call it an unfriendly business atmosphere in El Dorado County we really have nothing to offer locally in the form of concentrated high end shopping, so the vast majority of my neighbors, and most everyone else I know from El Dorado Hills, Latrobe, and Rescue takes the short drive to Folsom for most of their shopping needs, so again no real sales tax benefit to El Dorado County, though Folsom is making a killing!!!

4. And the big kicker... What concerns me the most is this... We who live strictly o of property tax revenue (your Fire Agencies) are directly hurt by this program. For us that don't benefit from sales tax, the math is simple - less property tax revenue, plus increased demand with more structures, and a more "vulnerable" population to protect equals totally unfair. This just doesn't seem right, and I would bet, considering the increased demand for services and low Medicare reimbursement rate that this program is also a losing proposition for the County,

especiallywiththemajorityofsalestaxmoneygoingdownthefreewaytobenefitFolsom. If you don't believe me on this, all anyone has to do is take a look at the consistent back-up of traffic coming from El Dorado County into Folsom on the West bound off ramp from HWY 50 to Bidwell.

Just my thoughts. Please share this with your peers. Thanks you! I appreciate the opportunity to comment.

Good Afternoon,

The Board of Supervisors received the annual report on the impacts of Prop 90 and voted to support Supervisor Frentzen's motion to "direct the Chief Administrative Office and County Counsel to take the appropriate action to discontinue the County's participation in Proposition 90 (Property Tax Portability), and return to the Board on November 7, 2017, for conceptual approval."

The Board indicated that they would like to see a plan to "phase out" Prop 90 participation so that those who are already engaged in the process of making a purchase subject to Prop 90 aren't harmed. The November 7th date is a goal, and if the date ends up being pushed out I will let you know. Thank you for your input so far.

Hello Sue,

Thank you for notifying all of us in the Special Districts, as the impacts of Proposition 90 are felt directly by all of our agencies. The El Dorado Hills Community Services District (District) request that El Dorado County abandon Proposition 90. The report on this topic provided by the CAO's office clearly describes a

net loss year over year, and essentially a subsidization of public services to newer residents upon the backs (e.g., tax funds) of existing residents.

This program has the intent to speed housing growth, which will in turn speed the availability of property tax revenue. Unfortunately, the pursuit of quick money and the possibility of other revenue (sales tax) shortchanges all agencies through a lower revenue stream today, and tomorrow. Now, although all agencies are affected from this, the potential for any sort of return on that investment will primarily go to those that benefit from sales tax. Essentially, this program runs the gamble of “maybe money” instead of the assurance of stable and reliable revenue from property tax.

Also important to note is that the cost for the provision of services (e.g., parks & recreation; fire/safety; roads; etc.) to residents does not change – only the available funds/revenue to apply to those service needs through Prop 90. Therefore, it is only a matter of time at which the level of service will be impacted. A good comparison that can be provided to elaborate this point is a current challenge that the District has been faced with for some of the lighting & landscaping assessment districts (LLAD). Earlier-formed LLADs have no inflationary factor, thus, the District is now, or will-soon-be, faced with a shortfall in funding available to provide basic landscape maintenance work. In this example those LLADs will distinctly be affected and its fairly easy to measure that affect. For Proposition 90 the impacts vis-à-vis loss of property tax revenue is also measureable, while the sought after benefits are much more nebulous.

Just this past week the District received a letter from the County indicating that it – the County – was seeking a tax redistribution for the Bass Lake North subdivision in El Dorado Hills. That redistribution was in the form of transferring property tax revenue that would otherwise be allocated to the District and Fire District, to the El Dorado Irrigation District (EID). It should be noted that both the Fire District and El Dorado Hills Community Services District are not enterprise fund operated, whereas EID is – or at least it appears to be by way of charges for water delivery and usage, and the schedule of rate increases approved in recent years. The topic at-hand does beckon many questions, with the following very relevant one, “would the revenue otherwise received from Proposition 90 been adequate to offset the County seeking a revenue reduction to the focused safety services provided by EDH Fire or the quality of life services provided by the District?”

As an aside, a June 2017 California Legislative Analyst’s Office (LAO) report spoke to other revenue-affecting opportunities that could be taken advantage of, such as for the Parent-to-Child Transfer Exclusion (Propositions 58 in 1986 and Proposition 193 in 1996). El Dorado County was specifically called out in the following way, “The widespread use of this exclusion has had a notable effect on local government property tax revenues. We estimate that in 2014-15 parent-to-child exclusions reduced statewide property tax revenues by around \$1.5 billion from what they would be in the absence of the exclusion. This is about 2.5 percent of total statewide property tax revenue. This share is higher in some counties, such as San Luis Obispo (7 percent), El Dorado (6 percent), Sonoma (6 percent), and Santa Barbara (5 percent). Figure 7 reports our estimates of these fiscal effects for the 25 counties where these effects are the largest,” with an accompanying estimate of nearly \$16 million in revenue loss in FY 2014-15 for El Dorado County alone. The report may be found here: [http://lao.ca.gov/publications/report/3693?utm\\_source=subscription](http://lao.ca.gov/publications/report/3693?utm_source=subscription)

Although the upcoming Board of Supervisors meeting agenda has already been posted, I’d appreciate this message and the LAO report be provided to the full Board and added to the record of comment of

received. Please inform me if that is not possible so that I may read the District's statement during the meeting.

Respectfully Submitted,

**Subject:** County to Receive Annual Report on Economic Impact of Proposition 90

As many of you are aware, last year the Board of Supervisors approved a five-year extension of the County's Proposition 90 ordinance, which authorizes receipt by the County of El Dorado of inter-county tax base year transfers.

Proposition 90 provides anyone over the age of 55 with relief from reassessment by allowing them to "transfer" their assessed home value from one county to another, provided that the home that is purchased in the new county is of the same, or lower, value.

With the extension of Prop 90, the Board also directed that the Chief Administrative Office provide an annual status report on the economic impact of Proposition 90 in El Dorado County.

The 2017 report is scheduled discussion during the Board meeting on October 24, 2017 at 10 AM.

## **MONTHLY ACTIVITY REPORT OCTOBER 2017**

***“YOUR SAFETY ... OUR COMMITMENT”***

The Board of Directors is considering adopting performance measurement goals to direct fire crew planning and to monitor the operation of the Department. These measures of time are designed to deliver outcomes that will save patients medically salvageable upon arrival and to keep small fires from becoming more serious. Such measures and goals provide the Department a foundation upon which future deployment decisions are based.

These deployment measurements include:

- DM 1 – 911 Call Handling Time
- DM 2 – Turnout Time
- DM 3 – Travel Time
- DM 4 – Total Response Time
- DM 5 – Effective Response Force Time

\*All times are collected using a combination of Active 911 and Crystal Reports. The times are provided with the best accuracy possible given the limitations of technology in our system. The current system does not allow for accurate data collection.

**Removal of the Deputy Chief Vacation Maximum Accrual Limit**

---

**Summary:**

The Unrepresented Management Group covers the Battalion Chiefs and Deputy Chief. Section IX. B. 1 states “Vacation will be accrued on a monthly basis with a maximum accumulation for non-shift employees of thirty-five (35) working days and for shift employees of three-hundred eighty-four (384) hours.”

The Deputy Chief has a high workload which makes taking vacation days off challenging. The only option to avoid reaching the current maximum accumulation of vacation days is to sell back the vacation time (or take the time off).

The Deputy Chief is requesting to remove the vacation maximum accrual limits.

**Fiscal Impact:**

There is no fiscal impact to this agreement.

**Recommendation:**

Staff’s recommendation is to remove the vacation maximum accrual limits for the Deputy Chief position.

Marshall,

I just wanted to give you a sincere thank you for allowing us to use your fire safety trailer for our open house event this past weekend. The event was a huge success thanks, in large part, to the generosity of the El Dorado Hills Fire Department. We put a few hundred kids through the safety demonstration and were able to educate many parents as well. Thanks again for your commitment to fire safety, community and brotherhood.
